## ECONOMICAL SPRAY TUB PARTS WASHER

Discover the Many Reasons LANDA Parts Washers Clean Faster for Less!

**Focused Cleaning:** Removable parts basket is tapered in order to keep the parts in the center for more uniform and effective cleaning.

**Chip Tray Protection:** Stainless steel tray keeps parts from falling into wash water and helps retain heat in tank.

**Surround Cleaning:** Stationary spray arms feature 88 directional spray orifices, more than three times that of traditional top-load washers.

**Rust Protection:** Bezel is made of 12-gauge stainless steel and the inner lid of 16-gauge stainless steel for rust protection.

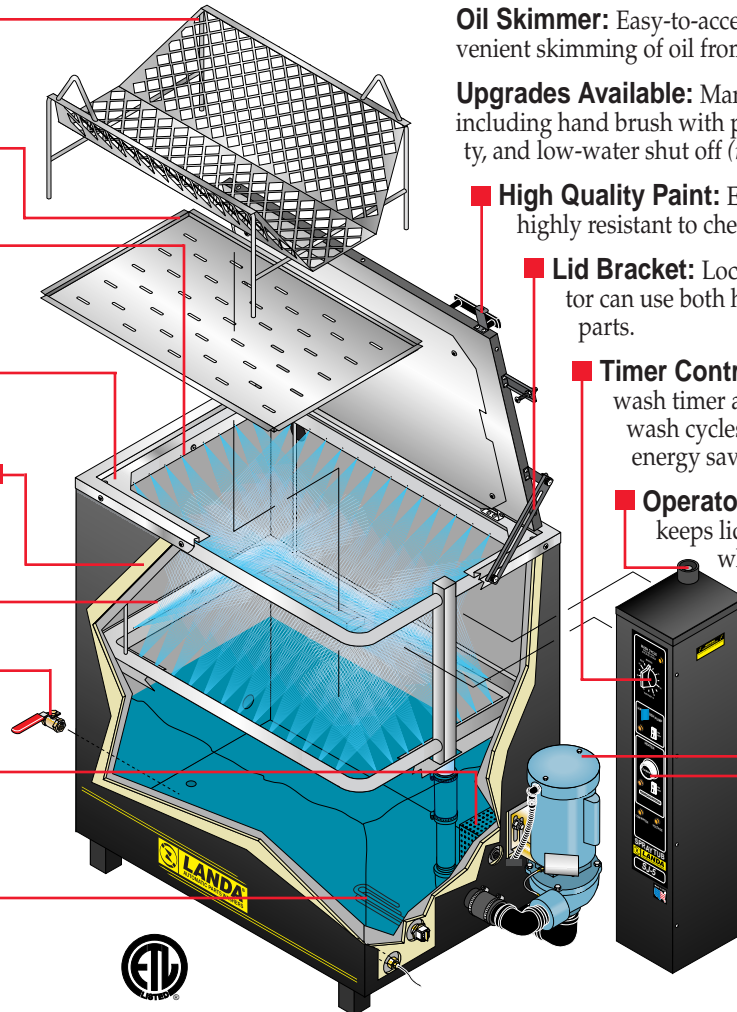

**Insulated, Durable Cabinet:** 10-gauge steel tank is insulated to keep water hotter longer; cabinet is made of 16-gauge steel for holding up under demanding applications.

**Easy Maintenance:** Spray bars easily lift out for service convenience.

**Convenient Disposal:** 1.25" drain port allows for quick removal of wastewater from tank.

**Strainer Protection:** An inlet strainer removes debris before it can damage the pump; the strainer is easily removed for cleaning.

**Efficient Heating:** 4.5 KW (1.65 KW on 120V model) calrod heating element is protected in an incoloy sheath for longer life (optional 6 KW heater on 230V models).

**Oil Skimmer:** Easy-to-access drain port allows for convenient skimming of oil from wastewater (not visible).

**Upgrades Available:** Many options are available, including hand brush with pump, extra heating capability, and low-water shut off (not visible).

**High Quality Paint:** Epoxy powder coat finish is highly resistant to chemical deterioration.

**Lid Bracket:** Locks open lid in place so operator can use both hands for positioning the parts.

**Timer Controlled:** Adjustable, one-hour wash timer allows the operator to set wash cycles for cleaning efficiency and energy savings.

**Operator Safety:** Latch (not visible) keeps lid closed during operation while safety switch automatically shuts down pump when lid is opened for operator safety.

**Industrial Pump:** Rugged 3/4 hp centrifugal pump delivers up to 90 GPM and continually flushes seals made of silicon carbide for longer life.

**Adjustable Thermostat:** For operator convenience in setting water temperature.

## SJ-5 SPECIFICATIONS

PART NUMBER	SJ-5A,B,D
LOAD WEIGHT	500 lbs (227 kg)
LOAD HEIGHT	15" (38 cm)
BASKET DIMENSIONS	16" x 26" x 12" (41 cm x 66 cm x 12 cm)
TANK CAPACITY	40 gallons (151 liters)
WATER PUMP	3/4 hp Centrifugal 90 gpm (341 lpm)
WATER HEATER	4.5 KW (230V), 1.65 KW (120V) Incoloy
ELECTRICAL	230V 1 ph 23 amps, 230V 3 ph 22 amps, 120V 1 ph 20 amps
CABINET SIZE LxWxH	24" x 40" x 40" (61 cm x 102 cm x 102 cm)
SHIPPING WEIGHT	410 lbs (186 kg)

Note: We are constantly improving and updating our products. Consequently, pictures, features and specifications in this brochure may differ slightly from current models. Equipment intended for indoor use only. Customer is responsible for any permits, compliance with codes, or other government requirements associated with the installation, use, or disposal of waste associated with this equipment.

## SJ-5 OPTIONS

**Automatic Water Fill:** Maintains water level in tank for uninterrupted operation.  
Part #21-113

**Hand Detail Scrub Brush with Pump:** For hand scrubbing hard-to-clean parts.  
Part #21-535

**Porta Kleen:** For processing spent wastewater (shown with wet vac and barrel).  
Part #PK-100D

**Programmable 7-Day Timer:** Saves energy by operating the heater only when needed.  
Part #21-520

**Low Water Shut-down:** Shuts down washer at preset water level.  
Part #21-510

**Hour Meter:** Monitors operation for maintenance.  
Part #4-050822

**Small Parts Basket:** With lid holds nuts, bolts, etc.  
Part #21-140

**6KW Heater:** For faster temp. rise or quick start up.  
Part #21-525

**Temperature Gauge:** For monitoring temperature of solutions.  
Part #4-0505
