## Details

### Description

The MC 50 is a highly economical, manoeuvrable and effective sweeper, which can be converted in minutes into a mower or snow plough and gritter. As the world leader in cleaning machine research and development, Kärcher has produced a thoroughly modern sweeper that is intuitive to operate, cost efficient to run and offers true versatility. By partnering with market leaders in grass care and winter services, this versatility comes without compromise to quality or performance – whatever the environment or season. The MC 50 is fully configurable with a host of optional extras to perfectly suit the demands of individual businesses and councils.

---

### Features & Benefits

Quick-change concept for changing attachments without tools

Quick and easy exchange of various attachments by only one person. The machine can be converted from a sweeper to a winter maintenance vehicle or lawnmower within minutes.

4WD all-wheel drive

For optimal grip and traction also on wet and slippery surfaces (e.g. in winter and on grassed areas).

Highly efficient vacuum system

This vacuum system is designed to reduce fuel and water consumption as well as exhaust emissions and operating noise.

Air conditioning

The MC 50 Advanced Comfort offers maximum working comfort in hot environments.
