

NUMATIC 'JAMES'

Unique Caddy Compartment

Excellent Performance

User Friendly

The Vacuum 'James' manufactured by Numatic offers simplicity combined with fantastic power and performance.

The unique caddy system provides the perfect place for the cable, tools etc.

With a large 8 litre capacity, four wheels for added stability and giant filters coupled with two stage Microflo' dust bags to give a machine that is quick and efficient to use and simple to empty.

Advantages

- Convenience - Compartment For Additional Items
- Productivity - Large Capacity for Increased Productivity
- Range - Long Cable Range of More than 25 metres
- User Friendly - Simple Commands, Easy To Operate
