

TRUVOX HD RANGE

- High Productivity**
- Cleans a Variety of Surfaces**
- Versatility**

The HD Range by Truvox has been specifically designed to cut through dirt, oil, grease, paint and other extremely tough deposits. Designed with wire brushes the Heavy Duty machines are even capable of scarifying concrete industrial floors.

For preparation of marble, granite, terrazzo and other stone floors the Diamond Finisher is the ideal solution for the task. With a unique Cimex triple brush action and machine construction means that it is very stable with no pulling action, this means that there is less operator stress and fatigue.

Advantages

- Technology - Triple Brush Cleaning Mechanism
- Productivity - Up To 950 m²/h
- Versatility - Three Different Brushes Available
