Vikan Wash Brushes & Poles

350mm Body Work Brush - Water Fed

Part No.	HxWxD (mm)	Temp
475752	130x350x90	50°C

An effective all surface water-fed bodywork brush for large areas. Fits all Vikan poles.

- Soft bristle
- Polyester material

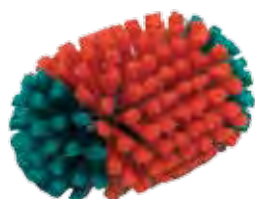

250mm Hi-Lo Angled Brush - Water Fed

Part No.	HxWxD (mm)	Temp
524752	110x250x160	50°C

The hi/low angled shape enables the filaments to be in contact with the surface constantly. With rubber edge.

- Soft bristle
- Polyester material

230mm Wheel Rim Brush - Water Fed

Part No.	HxWxD (mm)	Temp
545252	110x230x160	50°C

Brush for cleaning wheel rims on trucks and buses.

- Soft bristle
- Polyester material

250mm All Surface Brush - Water Fed

Part No.	HxWxD (mm)	Temp
475552	130x250x90	50°C

An effective all surface water-fed bodywork brush with a protective rubber strip. Fits all Vikan poles.

- Soft bristle
- Polyester material

380mm Hand Brush - Water Fed - Garden Hose QRC

Part No.	HxWxD (mm)	Temp
525452	140x50x380	50°C

A water-fed hand brush, complete with a Garden hose connector. Ideal for small cleaning tasks.

- Soft bristle
- Polyester material

430mm Hand Brush - Water Dip

Part No.	HxWxD (mm)	Temp
522252	70x55x430	50°C

A long handled dip brush for general use.

- Soft bristle
- Polyester material

280mm Hand Brush - Water Dip - Rubber Edged

Part No.	HxWxD (mm)	Temp
525252	130x45x280	50°C

A rubber edged, soft brush. Ideal for cleaning of aluminium wheel rims.

- Soft bristle
- Polyester material

Rim Brush - Water Dip

Part No.	L x Ø (mm)	Temp
525352	325x60/40	100°C

A dip brush to clean alloy and stainless steel spoked wheels and rims.

- Soft bristle
- Polyester material

320mm Hand Brush - Water Dip

Part No.	HxWxD (mm)	Temp
524652	110x80x320	50°C

The ergonomic design makes this brush comfortable, effective and easy to use, safely, on all surfaces for either dry or wet tasks.

- Soft bristle
- Polyester material

Vikan Wash Brushes & Poles

Insect Pad Holder

Part No.	HxWxD (mm)	Temp
55002	120x230x95	130°C

- Polypropylene material

This cleaning pad holder with a swivel joint will remove insects and stubborn soilage from windscreens with ease when used with the 552552. Fits all Vikan poles

Insect Remover - Scourer Pad

Part No.	HxWxD (mm)	Temp
552552	25x250x120	100°C

- Nylon material

ONLY TO BE USED ON GLASS, this pad rapidly removes insects and stubborn soilage from windscreens.

Wipe 'n' Shine - Water Remover

Part No.	HxWxD (mm)	Temp
707852	210x350x50	100°C
707952	210x450x50	100°C

- Soft rubber material

Wipe 'N' Shine is particularly effective in removing water and lime stains from car paintwork. Fits all Vikan poles.

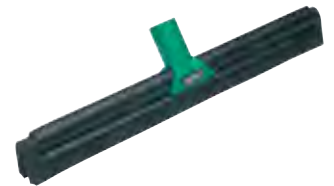

Floor Squeegee

Part No.	HxWxD (mm)	Temp
708852-40	400x100x60	70°C
708852-60	600x100x60	70°C

- Oil resistant rubber material

Efficient floor squeegee for dealing with water and oil. Fits all Vikan poles

Extending Pole - Water Fed - QR Connector

Part No.	L x Ø (mm)	Temp
297352Q	1675 to 2780 x 50	50°C

- Aluminium & polypropylene construction
- Max pressure 6 Bar

Ergonomic water-fed handle with insulated grip and quick connector. (Compatible with AKBO quick couplers only)

Fixed Pole - Water Fed - QR Connector

Part No.	L x Ø (mm)	Temp
299152Q	1600 x 34	50°C

- Aluminium & polypropylene construction

Ergonomic water-fed handle with insulated grip and quick connector. (Compatible with AKBO quick couplers only)

Fixed Pole - Water Dip

Part No.	L x Ø (mm)	Temp
293752	1500 x 34	50°C

- Aluminium & polypropylene construction

Ergonomic handle with insulated grip.

Extending Pole - Water Dip

Part No.	L x Ø (mm)	Temp
297552	1630 to 2780 x 50	50°C

- Aluminium & polypropylene construction

Ergonomic handle with insulated grip.

Wash Brushes & Poles

Polyester Bristles

Part No.	Max Press	Max Flow
ARTFB6008	5 Bar	40 Lpm

- Polyester bristles
- Thermoplastic head
- Rubber surround
- 1/2" F threaded inlet
- C/w 1/2" M x 1/4" F reducer
- Max Temp 40°C

Nylon Bristles

Part No.	Max Press	Max Flow
0201002000	5 Bar	12 Lpm

- Polypropylene bristles
- Thermoplastic head
- 1/4" F threaded inlet
- Max Temp 30°C

Synthetic Bristles

Part No.	Max Press	Max Flow
29.0540.00	5 Bar	40 Lpm

- Synthetic bristles
- Soft rubber surround
- 1/2" F threaded inlet
- Max Temp 60°C

Natural Bristles

Part No.	Max Press	Max Flow
ARTFB6001	5 Bar	40 Lpm

- 100% natural bristles
- Thermoplastic head
- Rubber surround
- 1/2" F threaded inlet
- C/w 1/2" M x 1/4" F reducer
- Max Temp 80°C

Rotary Head - Natural Bristles

Part No.	Max Press	Max Flow
ART290500	30 Bar	30 Lpm

- 100% natural bristles
- Gear driven brush head
- Thermoplastic head
- Fitted with 3mm nozzle
- 1/4" M threaded inlet
- Max Temp 60°C

Brush Holder - Wall Mounted

Part No.
29.030

- AISI 304 Stainless Steel
- 250W x 110D mm

Brush Tank - Wall or Floor Mounted

Part No.
28.3270.00

- Polyethylene construction
- 424W x 197D x 585H mm
- UV resistant
- Wall and floor fitting
- Water outlet plug
- Internal overflow pipe

Brush Extension Pole

Part No.	Threads
ARTFB6017	1/2" M x 3/8" F

- Fits ARTFB6008, ARTFB6001 & 29.0540.00
- Plastic coated Aluminium

Rotary Brush Kit

Part No.
8000-5128

- Rotary geared car wash kit
- Aluminium ext & swivel handle
- Angled nozzle head
- Adjustable hose nozzle
- Shampoo stick & hose fittings
- Garden hose connector

Fixed Brush Kit

Part No.
8000-5202

- Car wash kit
- 2 aluminium extensions
- Angled nozzle head
- Hose fitting with tap
- Shampoo sticks
- Garden hose connector

Shampoo & Wax Sticks

Part No.	Description
8000-5280	Shampoo Sticks
8000-5285	Wax Sticks

- 20 shampoo sticks in blister pack
- 10 wax sticks in blister pack
- For use with any brush or kit

Car Wash Kit

Part No.
8000-5224

- Car wash kit
- Small fixed brush
- Hose fitting with tap
- Garden hose connector
