

EDGE ST18 / ST30

Dry steam cleaner with 10 bar pressure

- Kills bacteria and germs without chemicals
- Dissolves grease and grime
- Steel construction
- Manoeuvrable with locking front castors
- 12 hours continual usage

The EDGE ST18 and ST30 are 10 bar pressure steam cleaners. Stainless steel construction, designed for heavily soiled areas which require steam cleaning without the use of chemicals. High temperature steam penetrates deep into surfaces, sanitising and killing bacteria in a wide variety of commercial environments.

These industrial steam cleaners are supplied with a complete set of tools and accessories. An efficient and effective dry steam cleaner saving time and money.
