

Ehrle HSC Cabinet Steam Cleaner

Static hot water high pressure cleaner

- Industrial steam cleaner, use inside or out
- Insulated powder coated cabinet
- Secure and simple operation
- Stainless steel jet nozzle
- Chemical dosing pump, low detergent use
- Oil heated

The Ehrle HSC cabinet industrial steam cleaner is a cost effective and efficient alternative to a mobile steam cleaner.

A control panel on the outside of the cabinet is provided for operator use, with simple on-off switches for the machine, boiler and detergent. A second control panel is locked on the inside of the cabinet, enabling only authorised people to set the temperature, pressure and chemical dilution rate, so there is no risk of operator abuse or error.

This static high-pressure hot-water cleaner features a brass pump head, ceramic piston, stainless steel valves, slow stop/start, leak recognition system and much more. The cabinet can be bolted down for additional security. Fuel and chemicals are locked inside the cabinet, or can be supplied from bulk storage.

HSC models have a powder coated steel chassis, and HSC-St models are also available with stainless steel (food safe) cabinets,

Standard machines are oil powered, and there is also an option for gas powered machines.

Technical data: Ehrle HSC Cabinet Steam Cleaner

| Features: | HSC 823 | HSC 1140 | HSC 1240 |
|--------------------------------|-------------------------|-----------------------|-----------------------|
| Operating pressure, adjustable | 30-125 bar / 3-12.5 MPa | 30-180 bar / 3-19 MPa | 30-160 bar / 3-16 MPa |
| Max Flow (ltr/hr) | 300-720 | 300-1000 | 300-1200 |
| Voltage | 1/240v | 3/400-415V | 415v |
| Hot water capacity (°C) | 30-98 | 30-70 | 30-98 |
| Motor speed (rpm) | 1400 | 1400 | 1400 |
| Connected load | 3.3Kw/13A | 6.5Kw/11.7A | 7.6Kw/14.1A |
| Dimensions (LxWxH) mm | 1220 x 755 x 1625 | 1220 x 755 x 1625 | 1220 x 755 x 1625 |
| Weight (Kg) | 301 | 313 | 301 |
