

Carpex 14:100 Foam Hot

Upholstery cleaning / sanitising machine

- Hot foam injection-extraction cleaning machine
- Quick drying – ideal for padded materials
- Adjustable foam / moisture settings
- Easy to use – conveniently placed controls

The Carpex 14:100 Foam Hot is designed for fast cleaning and sanitising of seating and many kinds of surfaces, ideally suited for use in the public and commercial sectors, e.g. to clean upholstered surfaces in buses, aeroplanes, restaurants, pubs, clubs etc. where it can clean from 20-30 seats in an hour.

This upholstery cleaning machine includes an on-board instant foam heater. This generates hot foam, which aerates on the fabric surface and can be scrubbed into the fibres, without sinking into the foam or padding, so it dries quickly.

Supplied with carpet extraction wand, suction hose and upholstery tool.

The Carpex 14:100 Foam Hot (previously the Santoemma Sabrina Foam) is also known as the Edge Carpetline 140 Foam-C.
