

Cordless Fogger V280B-CF

Battery powered fogging machine

- ULV fogger / disinfectant sprayer for professional use
- 1 hour continuous fogging on full charge
- Cordless and lightweight, so suitable for use in larger areas
- Easy to operate, durable and low maintenance
- Suitable for use with antiviral disinfectant
- Can be used portable or stand-alone
- Use for fogging indoors and outdoors
- Extendable hose

The V280B-CF Cordless Fogger is a professional standard cold fogger, convenient for indoor and outdoor use. Easy to use and highly portable, and can also be used stand-alone.

With a polyethylene solution tank, this fogging machine / disinfect sprayer is durable and low maintenance.

This ULV (Ultra Low Volume) fogger is manufactured from highly durable thermoplastic and powered by Smart Battery technology, so is quiet in use. The Li-ion battery pressurises the disinfectant solution and disperses it in fine droplets (15 to 30 microns) at a flow rate of up to 7 litres per hour. The spray volume is adjustable using the three pre-set nozzles provided.

ULV foggers are suitable for odour control and disinfecting or sanitising, e.g. in care homes, hotels, offices, holiday lets etc.

Can be used with [anti-viral disinfectant suitable for Coronavirus protection](#).

Also ideal for pest control and to deodorise smoke contaminated buildings, as the fine fog can penetrate porous surfaces.

Can be used indoors or outdoors and are supplied with a shoulder strap and battery charger.

The V280B fogger includes a 50cm extendable hose, to produce a larger fogging distance and to reach into difficult areas.

Technical data: Cordless ULV Fogger V280B-CF

Features:	V280B-CF
Voltage	24V DC Li-ion battery 11.6Ah
Motor	Brushless
Solution discharge	Diaphragm pump
Noise level	75dBA
Tank capacity	2.5 litre
Droplet size	15-30 um
Continuous run time	1 hour
Charging time	4.5 hours
Fogging distance	11 metres
Spray volume (litres per hour)	2.5, 4.5 or 7.0
Nozzle Type	Double turbine
Hose length	50 cm
Approx weight (empty)	3.7kg
Dimensions L x W x H (mm)	390x170x350
