

## Foam Dispensing Trolley

Commercial foam dispenser

- Designed for food preparation area cleaning
- Large capacity hose reel
- Apply foam, rinse and sanitise

All your cleaning requirements built into one trolley. Designed by engineers with years of experience in the food industry, this trolley can take the hard work you give it and the large capacity hose reel allows for maximum reach without re-siting the trolley.

Featuring easy to use controls and separate colour coded lances to apply the foam, rinse and then sanitise. Supplied with lockable castors and lance storage.

Foam dispensing trolleys can be used on water pressure systems up to 3000psi / 200bar by use of the bypass line, full flow rinsing is achieved.
