

i-remove Mini Chewing Gum Removal Machine

Small, lightweight machine for removing sticky substances

- Portable, lightweight chewing gum removal machine
- Easy to carry, no cables
- Evaporates gum seconds
- Also removes glue and other sticky substances
- Very quiet in use
- Easy, accessible, operator controls
- Can be used indoors or out
- Works on hard and soft surfaces

The i-remove Mini -gum chewing gum removal machine is extremely lightweight and portable. Easy for one person to operate, the i-remove Mini can be carried into the required location using the carrying handle. An optional backpack kit is also available, enabling it to be used as a backpack machine.

Not just for chewing gum removal, the i-remove Mini can also be used to dissolve and evaporate stains, sticker residue, glue and mould. Suitable for use outdoors and also indoors, to clean fabric seating, hard and carpeted floors on public transport, in cinemas etc.

One i-power 14 battery provides 105 minutes runtime.

The i-remove Mini is supplied with a 1 litre removable solution tank, with a specially designed brush, emitting a pH neutral and safe enzyme steam mixture to dissolve the chewing gum, which can then be brushed completely away. The drip bucket provides a place to rest the lance, to catch any drips. Different brushes are available to suit different surfaces, and the brush holder stores up to 4. With centralised operator controls in the head of the machine, everything you need is in easy reach.

No water or power supply is required to operate the machine. The efficient heating element of the lance, when used with pre-diluted detergent uses just the correct amount of detergent.
