

Karcher B 150 R *

Ride-on scrubber drier

- Battery powered floor scrubber
- Productive & efficient commercial scrubbing machine
- Interchangeable cleaning heads
- Differing battery options
- Safety features
- DOSE detergent dosing unit
- Compact design
- Reduced water consumption
- Qualifies for ECA *

The Karcher B 150 R ride-on scrubber drier has numerous customer-oriented design features and accessories to make floor cleaning safer, more convenient, energy-saving – and more productive. The outstanding suction performance and aluminium die cast squeegee reduce residual moisture left on the floor.

Features include interchangeable cleaning heads, detergent dosing unit, tank rinsing system, 4 battery options, with a built-in charger and side brush pre-sweep system.

This heavy duty scrubber dryer is ideal for use in industrial environments as well as shopping centres, hotels etc. A range of accessories means that this scrubber drier can be tailored to your cleaning application. Standard features include big bumper wheels, easy brush change and tear-resistant side skirt. Karcher's unique KIK operator key system allows access rights to be set up to ensure safety, economic operation and operator confidence.

Brush and disc head options, with working widths from 75-90cm and adjustable brush speed. Auto-fill feature included as standard. The optional side scrub deck extends the working width up to 100mm and enables close to the wall cleaning and cleaning under shelves. Spring mounted, it returns to the machine should objects be encountered.

Efficient and economical commercial floor scrubber dryer

The B 150 R can be used in Eco mode, for reduced power consumption, 40% longer run-time per battery charge and very quiet operation, for use in noise sensitive areas. The tank rinsing system enables easy cleaning of the dirty water tank for high levels of hygiene whilst saving up to 70% of the water used when cleaning with a conventional water hose.

The Karcher B 150 R * qualifies for the Enhanced Capital Allowance scheme and is also on the water technology list. See more information about [ECA](#).

Technical data: Karcher B 150R

Working width, vacuum (mm)	940-1060
Working width, brushes (mm)	750-900
Fresh/waste water tank (l)	150/150
