

Karcher B 200 R

Heavy duty ride-on scrubber dryer

- Battery powered commercial / industrial floor scrubber
- Outstanding suction performance, minimal residual moisture
- Compact design
- Safety features
- DOSE detergent dosing unit
- Reduced water consumption

The Karcher B200R compact, battery powered scrubber dryer is suitable for cleaning industrial and commercial floors up to 7000m². A range of cleaning modes is available with brush and disc head variants and variable brush speed. This powerful floor scrubber is equipped with numerous features, including:

- Integrated sweeping unit for pre-sweeping of coarse dirt, to avoid clogged squeegees
- High contact pressure for enhanced cleaning, reducing detergent usage
- Choice of batteries, with built-in charger
- Self-cleaning roller
- Height adjustable seat for operator comfort
- Powerful traction drive

The B200 R is suitable use in industrial environments as well as shopping centres, hotels, multi-storey car parks etc. A range of accessories means that this scrubber dryer can be configured to meet your needs. The optional side scrubbing deck extends the working width up to 100mm and enables cleaning close to walls and under obstacles, reducing manual work.

Efficient and economical commercial floor scrubber dryer

The B 200 R can be used in Eco mode, for reduced power consumption, 40% longer run-time per battery charge and very quiet operation, for use in noise sensitive areas.

Technical data: Karcher B 200R

Features:	B200R
Working width, vacuum (mm)	940-1060
Working width, brushes (mm)	750-900
