

## Karcher BV5/1 Bp

### Battery powered backpack vacuum cleaner

- Ideal for use in narrow or confined spaces
- Adjustable ergonomic carry frame
- Control panel on waist strap
- 290mm floor nozzle and upholstery nozzle
- Eco!efficiency mode option

The Karcher BV 5/1 Bp backpack vacuum is designed to ensure a comfortable fit and can be adjusted to suit different operators. The patented carrying frame reduces vibration and heat generation making it easy and safe to use.

Controls and indicators are contained in the waist strap, and the BV5/1Bp also features Karcher's Eco!Efficiency mode to save power and enable longer continued use of the vacuum.

The lithium-ion battery provides 26 minutes running time (43 minutes in eco!efficiency mode).

Supplied with 1.5m suction hose, telescopic suction tube, filter bag and washable nylon filter, 290mm switchable floor nozzle, upholstery nozzle and battery charger.
