

Karcher City Sweeper MC 80

Compact ride-on municipal sweeper

- Multi-functional outdoor sweeper
- Suitable for road sweeping, pavements, parks etc
- Designed for operator comfort
- Double brush system with individual brush control
- 800 litre waste container
- 25% hill climbing ability

The diesel powered Karcher MC 80 has a range of features including an 800-litre waste container with water circulation system, double-brush system with individual brush control and a straight suction channel to prevent blockages. The patented quick-change system enables the fast and simple change of accessories. The MC80 can be driven forwards and backwards and manages slopes up to 25%, thanks to the hydrostatic traction drive. Other features include a bulk waste flap, foliage suction hose and a particulate filter. The water spraying system suppresses dust around the side brushes and in the intake duct.

The MC 80 has the largest cab in its class, with an all-round view, heater and air-con in the ergonomic cab for a high level of operator comfort. A lockable storage compartment, bottle holder and USB charging port are also included. Entry and exit can be made from either side.
