

## Kranzle HD Series

### HD 7/122 and HD 10/122 portable high pressure cleaners

- Cold water pressure washer
- Compact, robust design and manufacture
- Suitable for heavy and prolonged use
- Long life-expectancy
- Practical carrying handle

Kranzle HD series cold water pressure washers are robust and low maintenance, so are ideal for trade use. From the precision made brass pump-head to the steel braided and rubber coated high-pressure hose, every component is built to last and these pressure washers represent outstanding value for money. An integrated soft start mechanism eases the load on the motor, making it easy to start.

Highly portable with a carrying handle, HD series machines are popular with contract cleaners and for vehicle valeting for example. The optional Dirtkiller lance creates a high powered spinning jet for deep and fast cleaning, increasing the effective psi by 50% or more. Optional chemical injector kit also available.

**The HD 7/122 (Kranzle K7/122)** has a heavy duty 4 pole, slow running induction motor, for low sound levels and high life-expectancy. A self-priming pressure washer, the K7 can take water from a tank or bowser, from a depth of up over 1 metre.

**The HD 10/122 (Kranzle K10/122)** has a faster motor for higher output.

**HD 7/122TS and HD 10/122TS** models are also available, featuring Kranzle's Total-Stop system, which switches off the motor when the safety trigger gun is closed. This is an energy saving feature, which also enables prolonged use and increases the service life of the machine. We recommend the TS models to users who power their machines from a standard power supply rather than a generator. Ask us for more information and pricing.

## Technical data: Kranzle HD Series Pressure Washers

Features:	HD 7/122 (K7)	HD 10/122 (K10)
Motor speed (rpm)	1400	2800
Adjustable operating pressure (Bar/PSI)	Max 135 / 2000	Max 135 / 2000
Water Output (ltr/min)	7	10
Max inlet water temperature (°C)	60	60
Power lead (m)	5	5
High pressure hose (m)	10	11
Dimensions (LxWxH) mm	440x200x330	440x200x330
Weight (Kg)	22	23
