

Kranzle X-Series

XA 15 TST / XA 17 TST pressure cleaner

- Cold water pressure washer
- Trigger gun with safety catch
- Variable operating pressure
- Quick-Click Dirtkiller nozzle
- "Total-Stop" system
- Accessory storage box

Kranzle X-Series (X-Line) portable high pressure washers feature a powerful combination of design and functionality. With a robust, long lasting construction, high portability and an effective combination of output pressure and flow, these cleaning machines are designed for every day commercial or industrial use.

The XA 15 has a slower running motor for maximum durability with lower water flow consumption, and the XA 17 has a 2800 rpm electric induction motor for increased power.

The Kranzle "Total-Stop" system stops the motor when the trigger is released, to extend the life of the pump and seals as well as reducing power consumption.

Supplied with steel braided, high pressure hose, a gun and lance, with a 5m power cable.

Featuring the Quick-Click Dirtkiller nozzle, which creates an extra powerful spray for tough cleaning jobs.

Technical data: Kranzle XA 15 TST / XA 17 TST Pressure Cleaner

Features:	Kranzle XA 15 TST	Kranzle XA 17 TST
