

MAC By-Turbo Hotbox

Professional mobile hotbox pressure washer

- Available in 240v or 110v
- High efficiency M2 boiler system
- Internal fuel tank
- Burner on/off switch and thermostat
- High quality steel cover
- Robust steel chassis

The MAC BY-TURBO is a mobile hotbox pressure washer that is fitted with an M2 boiler system to turn your cold pressure washer into a hot pressure washer with maximum heat output.

This machine is available in 240v or 110v power requirements and is equipped with flow switch protection and burner on/off switch thermostat as standard.

The BY-TURBO are beautifully designed machines and constructed on a robust painted steel chassis and contained in a stainless steel cover.
