

MAC Kalos 12v Hotbox

Professional mobile hotbox pressure washer

- 12v power supply only
- Larger boiler for extra heat at 21 litres
- 31 Litre easy fill internal fuel tank
- Burner on/off switch, pressure gauge and thermostat
- Robust painted steel chassis and panels

The MAC KALOS 12v is a mobile hotbox pressure washer that only requires a 12v power supply. It is fitted with a large boiler system to turn your cold pressure washer into a hot pressure washer with extra heat output achieved at 21 litres cold water input.

This machine is equipped with flow switch protection, pressure gauge and a burner on/off switch thermostat as standard. The KALOS 12v is constructed on a robust painted steel chassis and protected by steel panels, mounted on rear castor wheels for increased manoeuvrability.

Technical data: MAC Kalos 12v Hotbox

Features:

KALOS1

Water Flow	12, 15 or 21 litre cold water input
Pressure	200bar max
Construction	Steel chassis, steel panels
Chemical	As per cold machine
Temperature	0 -100°C dependant on input
Power Requirement	12v
Weight	150kg
Dimensions (H x W x D)	115 x 55 x 85cm
