

MAC Laser

Mobile cold water pressure washer

- Stainless Steel chassis and cover
- Low pressure detergent system
- 100 or 200 bar pressure
- Professional Interpump with ceramic pistons
- High water flow and pressure

The MAC LASER is a mobile cold water pressure washer powered by an industrial 1450rpm 4 pole electric motor, making it capable of producing up to 200bar of pressure on a standard 415v power supply. It has a robust stainless steel chassis and cover and is supported by 4 large wheels.

The MAC Laser comes equipped with many features including a low pressure detergent system, including chemical injector.

A 10 metre high pressure hose, twin lance and heavy duty trigger are equipped as standard.
