

MAC Revolution Electric

Compact hot static pressure washer

- Electrically heated static pressure washer
- Work on standard 32amp, 400v supply
- Max temp 80°C
- Double insulated hot water tank
- Low thermal loss in standby, fast re-heat time
- Includes retractable hose reel
- Unique stainless steel subframe construction
- Simple 24v controls

MANUFACTURED IN GREAT BRITAIN 

The MAC REVOLUTION ELECTRIC is a compact static pressure washer, designed to work on a standard 32amp electricity supply, making it suitable for a wide range of businesses and applications, including car valeting.

The MAC Revolution Electric has a high temperature interpump, low revving 1450rpm pump and motor and a 170 litre double insulated water tank which heats up to 80°C in minutes, with low thermal loss in standby.

Efficient and easy to operate, CO² emission free and equipped with the MAC 21TECH operating system.

Black or stainless steel cabinet options

The stainless steel sub-frame makes this a robust machine and the weatherproof steel cabinet is available in either black powder coated finish or full stainless steel (SS model), ideal for use in food production.

Features include an easy to use control panel and digital temperature display, hinged lid and lockable front door, giving easy access for servicing, this pressure washer is designed for professional use.

Optional accessories include an internal hose reel, remote control box, lance and lance holder, coin / token acceptor, or key fob control system.
