

## MAC SW50

### Industrial walk behind sweeper

- Battery or petrol powered
- Highly manoeuvrable
- Heavy duty chassis
- Hopper lifting flap for waste collection
- Forward traction

The MAC SW50 is an industrial pedestrian sweeper, available in both battery and petrol powered models. The machines are equipped with multiple features that deliver a superior cleaning performance that is ideal for heavy-duty industrial areas such as agricultural, warehouses and factories.

The 680mm maximum sweeping width provides a large area coverage of cleaning, with a productivity rate of 2600m<sup>2</sup> per hour. The waste is collected in a large 45 litre hopper meaning less time is required emptying the waste.

The MAC SW50 machines are highly manoeuvrable and easily controlled by the operator through the simple mechanical operation panel and indicators. Standard features include electronic forward traction, electric filter shaker, strong suction and a battery level indicator.

## Technical data: MAC SW50

Features:	MAC SW50B	MAC SW50P
Sweeping width centre brush (mm)	510	510
Sweeping width with RH side brush (mm)	680	680
Side brush width (mm)	360	360
Filter surface area (mt/sq)	2	2
Working capacity (m <sup>2</sup> per hour)	2600	2600
Waste hopper capacity (Litre)	45	45
Power supply	Battery	Petrol
Traction drive	Forward traction	Forward traction
Weight (Kg)	78	78
Dimensions (H x W x D)	850 x 630 x 1260	850 x 630 x 1260
