

MAC SW70

Industrial walk behind sweeper

- Battery or petrol powered
- Highly manoeuvrable
- Robust steel chassis
- Hopper lifting flap for waste collection
- Forward traction

The MAC SW70 is an industrial sweeper, available in both battery and petrol powered models. The machines deliver a superior cleaning performance that is suited for heavy-duty industrial areas such as agricultural and warehouses.

They have a large maximum cleaning width of 880mm which produces a productivity rate of 3700m² per hour. The waste is collected in a large 60 litre hopper meaning less time is required emptying the waste.

The MAC SW70 sweepers are light weight, highly manoeuvrable and easily controlled by the operator through the simple mechanical operation panel. Standard features include electronic forward traction, electric filter shaker, strong suction and a battery level indicator.

Technical data: MAC SW70

Features:	MAC SW70B	MAC SW70P
Sweeping width centre brush (mm)	710	710
Sweeping width with RH side brush (mm)	880	880
Side brush width (mm)	360	360
Filter surface area (mt/sq)	3	3
Working capacity (m ² per hour)	3700	3700
Waste hopper capacity (Litre)	60	60
Power supply	Battery	Petrol
Traction drive	Forward traction	Forward traction
Weight (Kg)	89	89
Dimensions (H x W x D)	1140 x 910 x 1520	1140 x 910 x 1520
