The **Matrix SV8** is a commercial / industrial 8 bar pressure steam cleaning machine. Made from a stainless steel construction with a continuous fill boiler. Supplied with a complete set of tools and accessories. High temperature steam penetrates deep into surfaces, removing grease, sanitising and killing bacteria in a wide variety of commercial environments.

The Matrix SV8 comes complete with an integral vacuum system that has been awarded a Clean Show Innovation Award for its unique design, and ensures surfaces are left clean & dry.

Can be used in a HACCP compliance system.

* The SV8 qualifies for the Enhanced Capital Allowance scheme and is also on the water technology list.

See more information about [ECA](#).
