

MotorScrubber M3

Lightweight portable scrubber

- Battery powered, cordless scrubber
- Multifunctional scrubber for walls, floors and other surfaces
- Lightweight machine and battery backpack
- 18cm scrubbing width
- 3 x faster than manual scrubbing
- 100% waterproof

The MotorScrubber M3 scrubber (previously known as the MS2000) is powerful, lightweight and battery operated for deep cleaning of floors, walls and all surface types. The M3's compact size and pivoting handle makes it suitable for scrubbing in confined spaces and clean underneath objects as low as 20cm (8").

Ideal for cleaning stairs, corridors, toilets, showers and swimming pools, where it is safe to use below the waterline, with no shock risk, due to the extra safe 12v volt DC battery.

Designed for prolonged use and weighing only 1.5kg (3.3lbs) the M3 can scrub walls up to 3m high (9.8ft). Supplied with a fully adjustable lightweight backpack, with quick change battery. With 4 hours run time, and single button control, the M3 provides deep cleaning, anywhere, on all types of surface.

The high torque motor delivers 10,000rpm (geared to 360rpm) and still spins at over 200rpm when 7kg of weight is applied to the machine. This super reliable motor gives outstanding cleaning results. With forged alloy gears, glass filled nylon casing, the M3 is built for years of trouble-free use.

The M3 scrubber starter kit includes a selection of pads and brushes, with a choice of handle lengths:

- Small Handle (MS4003-S): Solid, 38cm
- Medium Handle (MS4003-M): Telescopic, 70cm – 140cm
- Long Handle: (MS4003-L): Telescopic, 120cm – 240cm

Additional pads and brushes are also available, see images above.

MotorScrubber Suction Kit – optional extra

The Suction Kit enables you to dry as you scrub. Simply connect to the M3, then attach to any wet vac, using the universal hose adapter.

Includes a suction housing designed to fit M3 and Jet machines, universal hose adapter, 5m hose, quick fit squeegees and 2 hose clamps.

All MotorScrubber machines are designed and built in the UK.
