

Nilfisk S3 L-M-H Vac

Industrial vacuum for hazardous dust

- 3 motor, single phase
- Range of filters for different types of dust
- Dual filtration system
- 50 or 100 litre container capacity

Nilfisk S3 L-M-H single-phase vacuum cleaners are designed for industrial use and are certified to collect the most hazardous types of dust, with monitored filter performance.

An optional HEPA H14 filter is available for the collection of very fine / toxic dust. Light, safe to use and easy to move around, the Nilfisk S3 has a detailed control panel, providing real-time monitoring and efficiency information.

Additional features include a solid / liquid cut-off system, safe bag for toxic material, a manual filter shaker and a fixed nozzle.

A range of S3 variants is available, some of which are shown below.

Please ask us for more information.
