

Nilfisk SR1101 Sweeper

Large & productive floor sweeper

- Compact, manoeuvrable & reliable sweeper
- Use inside and out, large areas and narrow spaces
- Battery or petrol models available
- Ergonomically designed with user friendly operation
- Powerful motor and large filter for long periods of use
- Large flap for collection of large debris
- Optimal dust control
- Large 70L hopper
- Excellent ramp climbing, up to 20%

The Nilfisk SR1101 sweeper is a battery or petrol operated ride-on sweeper which provides excellent cleaning results, picking up debris whilst keeping dust under control. Suitable for use indoors and out and recommended for factories, warehouses, car parks and other outside areas.

The SR1101 makes cleaning both economical and productive. The easy to operate operating panel means less operator training time needed, and the range of optional accessories provides the right tools, easily accessible, for high quality, faster cleaning. The adjustable steering column, heel & toe pedal for directional control and all-round visibility make this a comfortable and safe machine to use.

Light debris in corners or above floor level can be quickly collected with the remote on-board vacuum system. The 70 litre hopper enables collection of large debris and the filter offers excellent dust control.

Designed with a corrosion proof steel frame and polyethylene bodywork, this floor sweeper can withstand tough working conditions, inside and outside. It has an excellent turning radius, enabling cleaning in narrow or congested areas and has up to 20% ramp climbing capacity.

Available in petrol or battery or petrol versions, the battery version offers up to 4 hours run time (can be extended to 6 hours with the optional battery tray).

Technical data: Nilfisk SR1101 Floor Sweeper

Features:	SR 1101B	SR 1101P
Working width – with 1/2 side brooms (mm)	980/1260	980/1260
Working width – without side brooms (mm)	700	700
Theoretical / actual surface performance with 1 side broom (m ² /h)	4900/3430	4900/3430
Working speed (km/h)	5	5
Sound Pressure Level (dB(A))	63.8	78.3
Hopper volume (l)	70	70
Power source	Battery 24 (V)	Petrol – 2.9kW / 3.9Hp 2.5L tank
Main filter area (m ²)	3.6	3.6
Dimensions L x W x H (mm)	1480 x 930 x 1220	1480 x 930 x 1220
Operating weight (kg)	465	392
