

Nilfisk VL500-75

Efficient wet & dry vac

- Fast and safe to use
- Wet and dry filters work simultaneously
- Quick release adjustable push handle
- 75 litre tank capacity
- 44 litre dust bag capacity

The Nilfisk VL500-75 is a larger capacity wet & dry vacuum cleaner, suited for use in public areas and by contract cleaners.

The filter design enables the separate wet and dry filters to operate at the same time, for maximum performance without the need to change filters, making daily cleaning fast and safe. The container can be emptied without removing the motor head and is supported by the Nilfisk Ergo tipping system which transfers the weight as the container is lifted.

Filters are also quickly changed using the hinged motor head. Accessories included.

Technical data: Nilfisk VL500-75
