

Prochem Comet

Self-contained carpet extraction cleaner

- Carpet and upholstery cleaning machine
- Light and compact, portable and easy to store
- Adjustable handle which folds down for storage
- Self-adjusting, self-levelling brush
- Patented lift-off bucket for easy filling / emptying

The Prochem Comet is an upright, self-contained extraction cleaner for use carpets and upholstery.

Small enough to clean in tight spaces, with side extension to clean up to the edge and weighing only 18Kg, this machine is easy to carry and to store when not in use.

To add chemicals, simply lift off the bucket, fill it, set it back on the machine and close the lid. There's no need to pour solutions into the machine, making it safe and easy for operators. The see-through recovery dome enables the operator to see when the machine needs emptying.

Optional accessories include a hand / upholstery tool and an extension hose for spot cleaning, cleaning carpet edges and for working on stairs.
