## Prochem Microsan Biocidal Cleaner

### Notes on use:

- Standard solution (all surfaces): Mix 20ml of Microsan concentrate per litre of water (2%)
- Heavy soil: Mix 60ml of Microsan concentrate per litre of water (6%)

Carpets, upholstery and other sensitive surfaces should be pre-tested for colour fastness, texture change and suitability before use. Dilute as required, apply the solution by sprayer to contaminated surfaces and allow 15 minutes contact time before rinsing.

For decontamination of Hepatitis B and HIV-1 virus allow a minimum of 30 minutes contact time before rinsing.

Wear protective gloves / protective clothing / eye protection / face protection when using.

See [Microsan Safety Data Sheet](#).
