

## Prochem Polaris

### Upright commercial carpet & upholstery cleaning machine

- Self-contained carpet soil extractor
- Ideal for institutional and commercial carpet cleaners
- High performance, easy to use
- Powerful 2-stage vacuum and 120 psi pump
- High vacuum airflow for faster drying
- Fully adjustable handle for operator comfort
- 70 decibel silencer, for quiet operation

The Prochem Polaris is a self-contained carpet extractor, ideal for contract cleaning and commercial use. It is easy to use, adjustable to suit the operator and offers high cleaning performance on carpets and upholstery.

The self-levelling cylindrical power brush floats over the floor, removing the need for manual adjustment on different surfaces. The Polaris is highly manoeuvrable thanks to the patented 4-wheel design, with pivoting action on front and rear wheels. It also dries quickly and the hinged body enables easy access to all components, making this a fast, easy and productive machine.

The see through recovery dome lets the operator know when the machine requires emptying, which is done by simply lifting off the bucket.

Ideal for use in quiet areas and the optional carpet wand and hand tools make it a versatile carpet and upholstery cleaner.

Free training voucher included with the Prochem Polaris.

## Technical data: Prochem Polaris

<b>Features:</b>	<b>Polaris 500</b>	<b>Polaris 700</b>	<b>Polaris 800</b>	<b>Polaris 1200</b>
Product code	SP500	SP700	SP800	SP1200
Solution tank (ltrs)	19	26.5	30	45
