

SnowEx SP Utility Spreader

Utility spreader, ideal for salt and grit

- Cost effective ice and snow management
- Variable spread width and speed controller
- Polyethylene hopper with all-weather cover
- Vibrator fitted as standard
- Use with mounting brackets or trailer mount

SnowEx SP utility spreaders offer a cost effective solution for salt and grit spreading, as they can be attached to commercial vehicles, 4x4s, pick-ups, tractors, & forklifts etc. A range of mounting brackets is available and also a trailer mount, enabling the SP spreaders to be used with any type of ATV.

The Mini-Pro SP-575 and Bulk-Pro SP-1575 / SP-1875 are designed to provide a cost-effective solution, typically used by councils, farmers, estate managers and contractors to clear ice and snow.

Designed to perform in the harshest of environments, both machines feature the SnowEx 12V max torque sealed drive unit – no belts, pulleys, sprockets or chains. 163 litre capacity. Minimal maintenance required.

Mini-Pro SP-575 features a top screen and lid, to prevent larger chunks from entering the hopper, and the vertical auger feeds directly onto the disc. Durable and easy to maintain, the SP-575 has a 25.4 cm nylon/glass resin spinner and a 12 volt electric motor in a sealed drive unit, giving a maximum spreading width of 12.2 meters. Spreading width and concentration can be adjusted using the in-cab speed controller, combined with adjusting vehicle speed.

Bulk-Pro SP-1575 and SP-1875 feature a horizontal auger and offset disc and a dual variable speed and spread width controller.

The SP-1575 has an integral 3-point mounting hitch for compact trailers. The SP-1875 has an optional pivot mount, allowing the spreader to swing away from the tailgate for improved access to the truck bed. the pivot mount is adjustable, allowing it to adapt easily to a wide range of vehicles. Maintenance is kept to a minimum, while tough polyethylene, low profile hoppers keep the weight down and avoid corrosion.

Technical data: Snowex SP Spreaders

Specifications	Mini-Pro SP-575	Bulk Pro SP-1575	Bulk Pro 1875
Length (mm)	630	750	609
Height (mm)	890	895	914
Width (mm)	960	960	1321
Spreading width (mm)	1500-2000	1500-2000	1500-9000
Spinner diameter (mm)	254	254	300
Hopper capacity (litres)	163	163	254
Weight (empty) (Kg)	48	55	81
