

TomCat Carbon

Scrubber dryer for cleaning, polishing and renovating floors

- Unique rectangular EDGE scrub deck
- Low water and chemical usage
- Can remove built-up dirt and polish without chemicals
- Polish natural stone floors
- Durable and easy to use
- Range of pads and tools

The TomCat CARBON EDGE scrubber dryer features the rectangular EDGE scrub deck, which works with an oscillating plate and a range of pads to clean right up to the floor edge and into corners.

Suitable for use on most types of hard floor, the CARBON can be used to remove old floor polish, renovate painted floors, polish natural stone and polish concrete floors. It is also suitable for deep-cleaning of ceramic floors and grout.
