

## TomCat GTX EDGE

Ride-on scrubber dryer with oscillating scrub system

- Cleans medium / large hard floors
- Low water and chemical usage
- Unique Edge cleaning system
- Highly product scrubber for maintenance cleaning
- Specialist pads for deep cleaning / stripping
- 80cm scrubbing path

The TomCat GTX Edge is a large ride-on scrubber drier with an 80cm scrubbing path, ideal for high productivity on larger floor areas. Regular cleaning jobs can be carried out quickly with minimal use of water and chemicals, whilst a range of specialist pads also enables the removal of floor seals without chemicals. This machine cleans floors which other scrubber driers can't!

The rectangular design of the Edge oscillating scrub system enables the GTX to clean up to edges and corners.

With a robust construction and powerful motors, the GTX fast, efficient and can be used for extended run times.

## Technical data: TomCat GTX EDGE
