

Truvox Backpack Vacuum VBPIIe

Commercial backpack vacuum cleaner

- Ideal for cleaning in small or confined areas
- Lightweight with ergonomic back support
- Telescopic wand and easy glide floor tool
- 4 stage filtration system
- Meets current ECO regulations
- Energy rating A (most efficient)

The Truvox VBPIIe backpack vacuum is ideal for use in confined areas e.g. buses & trains, offices, schools, colleges, and care homes. With an 850w motor, this backpack cleaner packs a punch, whilst being lightweight and ergonomically designed to minimise operator fatigue.

With an on-off switch on the waist strap and single handed tool operation, operators are able to collect litter and move obstacles whilst they vacuum. Easy to use cord system with 15m of cable.

Supplied with full toolkit, adjustable harness and waist straps.
