V2 Antiviral Disinfectant Sanitiser, for use in Fogging Machines

- Kills 99.99% of germs and viruses
- Effective within 5 minutes
- Cleans and disinfects
- Non bleach formula
- Safe for food preparation areas
- Non tainting
- General purpose sanitiser
- Tested to BS EN 14476, BS EN 1276 & BS EN 13697

Professional V2 Healthcare Super Antiviral Disinfectant's powerful formulation kills a range of pathogenic viruses in under 5 minutes.

The safe formula is suitable for use on most non-porous surfaces and when used as directed, leaving treated surfaces safe for human contact.

Independently tested February 2020 to European Standard BS EN 14476 against Coronavirus.
[See the Super Antiviral Disinfectant Summary of Efficacy here](#)

V2 Antiviral Disinfectant is supplied ready to use (no dilution required) in Chemical foggers and can also be used with a trigger spray. Supplied in packs of 2 x 5 litre containers.

How much disinfectant do you need?

It varies according to the flow rate and method of application, but as a rough guide, use 5-10ml per square metre of floor area, so a 5 litre container would cover approx. 500 to 1000 square metres.
