

AS430/510 Scrubber Dryer

Walk-behind scrubber dryer

- Medium sized scrubber for daily cleaning
- Battery or electric powered
- Integrated solution / recovery tank
- User friendly, simple to use

The Viper AS430 / AS510 are medium sized pedestrian scrubber dryers, ideal for use in heavy traffic areas. 15" and 17" models available, both either battery or cable powered, with 20m cable.

The integrated solution and recovery tank has a higher than average tank capacity, so you can clean for longer on one fill. The large recovery tank cover makes it easy to access and clean.

The ergonomic start / stop switch, combined with reduced pushing force required and built in charger, makes this scrubber dryer easy to use. Brush and vacuum motors are protected from water splash. Suitable for indoor floor cleaning in hotels, restaurants, schools, retail outlets, hospitals etc.
