

Whirlaway Flat Surface Cleaner

Rotary surface cleaning tool

- Works with any pressure washer
- Makes cleaning flat surfaces easy
- Increases cleaning productivity
- Operates with hot or cold pressure washers
- Available in sizes from 16" to 30"

The Whirlaway is a powerful pressure washer accessory for flat surface cleaning problems. Turning your pressure washer into a flat surface cleaner, it is ideal for cleaning all types of surfaces including driveways, concrete floors, patios and can be used with any type of hot or cold pressure washer. Cleaning up to 20 square metres per minute, it has a user friendly design, reducing operator fatigue and increasing productivity. Its efficient, powerful cleaning process can save up to 80% on labour costs.

The Whirlaway connects to your pressure washer and directs the pressurised water to 2 or 3 nozzles which rotate within a circular housing, so the water is applied from close to the ground, keeping the water where you want it and resulting in an even finish. Any overspray is contained within the housing, so no cleaning water is wasted.

The Whirlaway comes in a variety of sizes and is ideal for large flat areas such as warehouses, pavements or car parks etc. and can be used with hot or cold pressure washers.
